

Maths focus:
Addition and
subtraction -
counting on and
counting back

Maths activity:

I count, you count is a game which can be used to practise counting on from different starting points. Begin by counting as you point to yourself. When you point to the children they continue the count. This is great for creating rhythmic patterns:

1, 2, 3, 4, 5, 6, 7, 8
1, 2, 3, 4, 5, 6, 7, 8, 9
3, 4, 5, 6, 7, 8, 9, 10,

Draw a picture of your house and garden. Add as much detail as you can.

Maths activity:

Encourage the children to create their own first, then now stories using the small world resources.

E.g. First there were 5 dolls in the house.

Then 2 more dolls came home.

Now there are 7 dolls.

Invent a vehicle. Draw a picture and label it.

Home Learning for Acorn Class RECEPTION Summer 2020 week 5 Invaders and Inventors

In addition to these activities children should read/practise phonics for half an hour a day and do some maths every day.

What is the best invention ever and why?

Maths activity:

Show me 5 fingers. Now show me 2 more.
How many fingers now? How do you know there are 7?
Did you count them all 1, 2, 3, 4, 5, 6, 7?
Is there another way to count them? We know we have 5 on this hand? Can we count on? 6, 7?

Invent a new animal. Can you draw and label it.

Build a den / fairy house in the garden
