

Maths focus:  
Place value

Perform a puppet show to the adults in your home. Can you make different voices for the characters too?

Maths activity:

How many legs does the ladybird have? How many spots? Use counters to add 6 spots to the other ladybirds. Can you find more than one way to do it?

Find out what people did in Roman baths

Go to the beach and write your name in the sand. Photograph it.

## Home Learning for Acorn Class Summer 2020 sheet 5 Invaders and Inventors

Sing your favourite song, then change the words or rhythm.

Maths activity:

Make springy-leg spiders.  Provide card circles for children to collage and strips of black paper. Show them how to fold each strip into zigzags to make 8 springy legs. They could also stick on 8 eyes.

In addition to these activities children should read/practise phonics for half an hour a day and do some maths every day.

Draw yourself dressed in Roman clothes.

Make a Roman shield or helmet.

Maths activity:

Provide simple templates to show the 7 days of the week. With the children, record the weather daily. Discuss what the weather is like today, what it was like yesterday. Count how many sunny days, windy days, rainy days there have been. Could we have 8 cloudy days in one week.

Find out what amphitheatres were used for.
