

Zoos should close!

Do you agree with this statement? Write an argument to persuade people to your way of thinking. Once you have done this, write an argument for the other viewpoint.

You could do this as posters if you prefer.

Acrostic poem

Use the initial letters of your name to create an Acrostic poem that describes who you are. (An acrostic poem is one where the first letter for each line is written vertically and spells a word).

Which Foods Contain the Most Sugar?

Do you know how much sugar is in the food you eat? Take 5 different foods (of a similar type if you can, like breakfast cereals) and find out how much sugar is in each one. Before you start, guess which will have the most and the least. Remember, you need to compare with the same amounts, like 100g. Write up your results as a bar chart. How close was your guess to the actual results?

Rainbows

Draw a rainbow, but this time try to blend the colours so you can't see where they change. Coloured pencils will be better than felt tips, paint will be a good challenge. Try different techniques to see which is more effective.

Money bags

Mr Coe divided 15 pennies among four small bags. He labelled each bag with the number of pennies inside it. He could then pay any sum of money from 1p to 15p without opening any bag. How many pennies did he put in each bag?

Oak Class Homework No.4

Every day read for 30 minutes and do 30 minutes of Sumdog.

When you are done, share your work on Google Classroom.

If you need any help, message me on the stream.....

Stay safe,

Mr Coe

Heart rate

Measure your resting heart rate (when you are sitting down). You can take your pulse at your neck or your wrist. Next do some vigorous activity for one minute like sprinting or burpees. Then measure your heart rate again; how is it different? Then record how long it takes for your heart rate to return to its resting rate. Record this in a table. Repeat for other exercises, which one raises your heart rate the most?

Noah's Ark

Noah saw 12 legs walk by into the ark. How many creatures could he have seen?

How many different answers can you find? Can you explain how you found out these answers?

Drawing

Find an object that interests you, make sure that it has lots of details, it could be a toy car, a plant or a bowl of fruit. Draw the object from different viewpoints; from the top, sides and below if you can. Do you notice anything about it you may have missed before?

Famous people

Choose a famous person you really admire and create a poster about them. It could be a sports person, a musician, writer or anyone you like. Create a poster about them and their life. Include a portrait and smaller drawings of their achievements. You can include text boxes with information too.

Ice cube challenge

Float an ice cube in a bowl of water. Place one end of a thread of cotton on the ice cube, then sprinkle the ice cube with a little salt. Wait for one to two minutes, then lift the thread. What happened? Do you know why?
