

Build a den

Build yourself a den. Use chairs, blankets, sheets to create a den for yourself and your family. This could be inside or outside. Just make sure you ask before you borrow any materials. Take a photo and share it. Don't forget to take a book to read in the den

Write a diary from your den

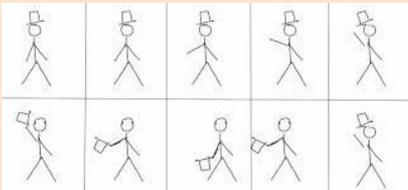

Sit in your den and imagine you are somewhere else. You could be shipwrecked on a desert island, or in a cave sheltering from a blizzard. Write a diary recording how you got there and what you think will happen next.

Design a poster

Design a poster to remind people to wash their hands for at least 20 seconds. Make it big and bold so you can read it from the other side of the room.

Make an animated flip book

Use a notebook or similar to make a flip book. You could draw a stick person jumping in the air. Make each drawing just different from the previous one to show the character moving.

Walk on the wildside

Write a poem describing the feeling when you walk on different surfaces barefoot. Like soft dewy grass, hot sand, a gravel drive or a stony beach. Describe how each texture feels under your feet and the different ways you would walk.

Oak Class Homework No.5

Every day read for 30 minutes and do 30 minutes of Sumdog.

When you are done, share your work on Google Classroom.

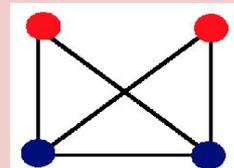

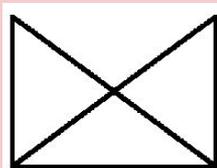

If you need any help, message me on the stream.....

Stay safe,

Mr Coe

Two stones - A game for two players

You will need to draw a grid like on the left below. Place two pairs of stones as in the picture on the right. Take turns to slide one of your stones along a line to another intersection. The object of the game is to block your opponent so they cannot move. Can you think of a winning strategy?

Make some Pairs cards

Make your own maths pairs game. Create pairs of cards that show a multiplication on one and the answer on another. You could do the times tables you need to practise or all the time tables up to 12 x 12. Then lay them out face down and turn over two at a time to find the pairs. If they are not a pair, turn them back and your opponent play. Find a pair and you get another go.

Learn to cook

Ask your parent or carer to teach you how to cook a simple meal for your family. Some suggestions are: boiling an egg; scrambled eggs; pasta and pesto. Remember to take care in the kitchen and listen carefully to keep safe.

Animal count

Next time your are out for your walk, make a note of all the different animals you can see. You could have a competition with your adult to see who can spot the most. Look for every type of animal, birds, mammals, insects, fish, amphibians...the winner gets to not to the washing up!

Create a face mask

Design and create a face mask to wear that would be suitable for younger children. It could feature a superhero of favourite character like Peppa pig!
